Eastern facial rejuvenation techniques have a long history based in **Ayurvedic, Japanese** medicine and **Traditional Chinese Medicine** . Ayurvedic , Japanese and Chinese healers always relied on a combination of factors, like diet, herbs, manipulative techniques , qigong and acupuncture to prolong life and let inner health be reflected in the face. These techniques are always used in conjunction with constitutional and pathological treatments . This modality goes beyond the purely aesthetic and addresses also the physiological condition of the client.

**In Oriental terms it treats who we really are by treating the face behind the mask.**

This is an excellent opportunity to offer something special to clients who need full body treatments for one ailment or other and **make them feel vibrant and young again !**.

The course covers:

1. Ayurvedic and Western essential oils used for lymphatic cleansing, cell regeneration and revitalization of different systems
2. Many individual hand techniques and manipulations for acupressure and massage used in Ayurvedic and Japanese Medicine for the shoulders, neck, scalp and face
3. Individual acupressure/acupuncture points with their special functions in anti-aging and facial rejuvenation
4. Western and Eastern herbal formulas, dietary recommendations and supplements for anti-aging and cell regeneration
5. Pattern diagnosis for various skin conditions : wrinkles, age spots , dark circles etc.
6. Case studies and treatment protocols for different cases
7. **Auricular massage for revitalization of the constitution.**
8. Self – massage and Qigong for the face and constitution

**TOPICS DISCUSSED AND PRACTICED :**

- A. Qualities of essential oils and their application to skin, fascia, muscle for goal oriented treatments
- B. Hands-on demonstration of different manipulative strokes and FACIAL MASSAGE TECHNIQUES
- C. Choice of protocol for the application for rejuvenation, repair and anti-aging
- D. Marketing strategies for this modality
